Example. A yearly Rent of 21 Years to come, at 7 per Cent. is worth in ready Money 10 Years and 10 Months Rent in Hand, whatever the Rent be: Which I find under 7 per Cent. and opposite to 21 Years in the Margent. And so of any other.

A Table for the renewing of any Number of Years lapsed in a Lease for 21 Years. Calculated at 5, 6, 8, and 10 per Cent. from the foregoing Table of Purchase, by subtracting the Value of the Years unexpired from the Value of the Lease; And at 11/ 11s. 8d. 11³/₄g. (a Rate usual for Church Leases) from the 8th Table in the Appendix to *Wingate*. The whole being the same, in effect, with the Table in the first Chapter of a Pamphlet on renewing and purchasing Leases, recommended by Sir ISAAC NEWTON.

Example. To renew a Lease of 21 Years whereof seven Years are lapsed, suppose at 10 per Cent. Opposite to 7 Years lapsed in the Margent, and under 10 per Cent. I find the Value of such Renewal to be 1 Year 3 Months and 11 Days Rent paid in Hand, whatever the Rent be. Example by the foregoing Table of Purchase: To renew a Lease of 31 Years, whereof 21 are lapsed; suppose at 7 per Cent. The Value of the Lease (or 31 Years) is 12 Y. 6 M. 11 D. The Value of 10 (the unexpired Years) is 7 Y. 8 D. The Difference is the Value of the Renewal, viz. 5 Y. 6 M. 3 D. Or rather 5 Y. 6 M. 2 D. Rent paid in Hand, because there is a Fraction omitted after Days in every Line of that Page.

MERCER'S Charitable Hospital in Stephen-street, is supported by several charitable Contributions, where Numbers of such poor sick and lame Persons, as appear to be curable, and proper Objects, are relieved. Physical and Surgical Advice is given to All. 65 sick Poor at once have been supplied with Diet, Washing, Lodging, and Medicines, besides a great Number of Externs, who come daily to be dress'd. Dr. Wm. Stephens, and Dr. John Anderson, Physicians, visit in their Turns on Mondays and Fridays. Messrs. John Stone, George Daunt, and Rice Gibbon, Surgeons, visit daily in their Turns,

and All serve without Fee or Reward. They publish an Account of their Proceedings yearly. The Trustees have now built a considerable Addition, on Ground given for that Purpose by the Archdeacon of Dublin, which holds 30 Beds, and Conveniency for bathing and sweating. Such Persons as send old Linen for Dressing, will do a great Act of Charity, and the Steward hath orders to pay the Carriage.

THE CHARITABLE INFIRMARY on the *Inns-kay*, the first Institution of that Kind in this City, was schem'd in the Year 1723, and opened in the Year 1728, where great Numbers of maimed, wounded, and diseased Poor, have been constantly relieved. This House having been in a ruinous Condition was rebuilt, and is now very commodiously fitted up for the Reception of Patients. There are upwards of 40, constantly maintain'd, supply'd with all Necessaries, and carefully attended by Physicians and Surgeons, as usual: Besides great Numbers of Out-patients, who are daily attended, and furnished with Medicines.

Of the INCORPORATED SOCIETY in Dublin, for promoting English Protestant Working Schools in Ireland.

THE principal Views of His Majesty's Charter for erecting these Schools, in the Year 1733, were Two. The First, for training up the Children of the poor Natives in the Protestant Religion; to which End, the Society are careful to provide them with good Masters and Mistresses, who shall teach them to read the Word of God, and instruct them in the true Principles of Christianity: The Second was, for training them up in Labour and Industry, in order to cure that habitual Idleness and Laziness, which is too common among the Poor of this Country, and which naturally leads them not only into Nastiness, but also Stealing, Lying, and most other Vices. To this

End, the Children are employ'd in cultivating the Lands that are granted to the Schools, either by Donation, or for a certain Rent; but especially in carrying on the Linen Manufacture in all its Branches. The major Part of their Time is devoted to these Labours, in order to render them useful Members of the Commonwealth as they grow up.

The Schools are supported by His Majesty's Bounty of One Thousand Pounds yearly, and by sundry annual Subscriptions and casual Benefactions in England and Ireland. Those already opened proceed in a flourishing Way, many of the Children having manufactured their own Cloathing; several have been transplanted from one School to another, and several also bound out Apprentices, especially to Branches of the Linen Manufacture.

Collected, every One, either from the Information of Gentlemen and Dealers, or from the Returns made by the Surveyors in their several Districts, which The Honourable Commissioners of His Majesty's Revenue were pleased to give Me, for the purpose of printing the Fairs with the greater Correctness in this Almanack: Which Original Returns are still in my Custody for Vouchers.

JOHN WATSON.

All the Fairs that happen on any one Day, are for the most part put alphabetically, so as to be found readily: k. c. King's County; q. c. Queen's County; And in the other Counties, only the 3 or 4 first Letters are set down. For the greater Ease of my Customers, I first set down the Day of the Month, and then the initial Letters of the Days of the Week, on which the Fairs will happen in 1743. Every one that falls out on Sunday, is of course kept on the following Monday; as is also a considerable Number of those that happen on Saturday.

The Principal ROADS of IRELAND.

Partly Corrected from Mr. SENEX's Map; By Mr. JOHN GIBSON: And partly Set down according to the Information of Gentlemen. Put into a new Method, by JOHN WATSON, Bookfeller.

THE MEASURED, or STONE-MILES, as far as I have received the Accounts of them, are marked with the Letter [f.] in the first Column of Figures. [f. f.] farther side from Dublin, and [n. f.] nearest side to Dublin.

The first Column of Figures is read thus; from Dublin to Swords 6, from Swords to White Hart 8, from White Hart to Drogheda 9 Miles, &c.

The second Column is read thus; From Dublin to Swords 6, from Dublin to White Hart 14, from Dublin to Drogheda 23 Miles, &c.

I distinguish the Columns at the Top by the Capital Letters, from A, B, C, and so on, that there may be easy References, to avoid Repetitions.
